

## WARRANTY CERTIFICATE

**EDICAR PLASTICOS, S.L. CERTIFIES** that the waterproof sheet with reference CEFIL POOL RPL 150, meets all the demanded requirements for this type of use, according to the current European regulation.

Therefore, a total of **10 years waterproofing guarantee-warranty** is given, from the date of installation of the material, to all the reinforced membranes, with a minimum thickness of 1,5mm.

The fulfilment of the following terms is compulsory to ensure that this certificate is valid:

- That the customer keeps the necessary documentation to be able to identify the batch of material affected by the guarantee.
- The installation procedures (welding, angles, mouthpieces, sealing) must be carried out according to the recommendations established in the technical document provided by EDICAR PLASTICOS, S.L.
- The installation is in agreement with the existing legal regulations.
- The thickness of the sheet is equal or more than 1.5 mm.
- The material must have been used in agreement with the application for which it has been purchased. In addition, the deterioration of it, cannot be due to a faulty installation or/and inadequate maintenance.
- All defects that appear during the time of guarantee should have to be attributed to the material and not to any other mechanical or physical aggression.
- In pool maintenance don't have used excessive or unusual concentrations of additives. Only the quantities established in the manual provided with the material.
- All the recommendations required by the current legislation have to have been followed as for the water treatment and quality. Control parameters have to be the same as those that are set out in the maintenance guide.
- The water temperature cannot exceed 32°C and any product containing copper or derivatives cannot have been used during the treatment of the swimming pool.
- The client has all the payments settled.
- The claim has to be written to EDICAR PLASTICOS, S.L., as soon as the defect is known. Before any possible repair or replacement of the material, if it is necessary, a visual inspection of the construction must be provided to EDICAR PLASTICOS, S.L. technical staff.

This guarantee is limited to the watertightness of the membrane. Any difference in the initial colour of the sheet, any stains or dirt, due to a misuse, or to the pool maintenance, will not be covered by the guarantee.

For the issue of the specific certificate for each work, it will be necessary to have all the corresponding data (reference of the membrane, batch number, quantity used, name of installer, place and date of installation...).

In any case, the guarantee is limited to replacement of the material sent by EDICAR PLASTICOS, S.L., excluding any other additional expenses that may arise from assembly, accessories and so on.

The guarantee expiration date will not change, although the material needs to be replaced.
