

Technical data Bandelette 9mm

Description:

Reinforced PVC bandelette, 9 mm wide, 1.5 mm thickness and presented in 25 m long rolls, used for membrane anchoring according to the HUNG system. The colour of this bandelette can be variable, but of the same composition as the reinforced membrane of the CLASSIC collection according to the European standard EN 15836-2 – Plastics-plasticized Poly (vinyl chloride) (PVC-P) membranes for inground swimming pools – Part 2: Reinforced membranes of nominal thickness equal to or greater than 1.5 mm.

Application:

The bandelette is welded at the upper end of the membrane, at the bottom of the membrane, to allow it to be hung on a hung type suspension profile, as indicated in the image below.
